

In the Title

Please amend the title to read --ASSEMBLY FOR PASSING THROUGH A PRINTER OR COPIER AND SEPARATING OUT INTO INDIVIDUAL PRINTED MEDIA--.

In the Claims

Please cancel without prejudice or disclaimer claims 5-13 and 24-35.

In claim 4, second line, before "bonded" insert --is--.

In claim 20, line 15, delete "easily and cleanly".

Please add the following new claims 36-56.

15
~~36.~~ The assembly of claim 1 wherein said print media comprises a supercalendered sheet.

16
~~37.~~ The assembly of claim 1 wherein said print media comprises a sheet treated with a chemical to make it more brittle.

17
~~38.~~ The assembly of claim 1 wherein said print media comprises an irradiated sheet.

18
~~39.~~ The assembly of claim 1 wherein said print media comprises an ultraviolet radiated sheet.

19
~~40.~~ The assembly of claim 1 wherein said print media comprises a gamma radiated sheet.

20
~~41.~~ The assembly of claim 1 wherein said substantial-cut lines extend about 90% through the thickness of said print media from a front surface towards a back surface thereof.

21
43. The assembly of claim 1 wherein said substantial-cut lines include lines cut from a top surface of said print media approximately 90% the way through towards a bottom surface thereof.

22
44. The assembly of claim 1 wherein said print media is a 10 mil thick card stock and said substantial-cut lines extend 9.3 to 9.5 mil through said card stock.

23
45. The assembly of claim 1 wherein said substantial-cut lines extend between 70% and 98% of the distance through the thickness of said print media from a front surface towards a back surface thereof.

24
46. The assembly of claim 1 wherein said substantial cut-lines comprise aligned top cut and bottom cut penetration lines leaving only a thin center piece of said print media therebetween.

25
47. The assembly of claim 20 wherein said print media comprises a supercalendered sheet.

26
48. The assembly of claim 20 wherein said print media comprises a sheet treated with a chemical to make it more brittle.

27
49. The assembly of claim 20 wherein said print media comprises an irradiated sheet.

28
50. The assembly of claim 20 wherein said print media comprises an ultraviolet radiated sheet.

29
30
51. The assembly of claim ~~20~~ wherein said print media comprises a gamma radiated sheet.

30
31
52. The assembly of claim ~~20~~ wherein said substantial-cut line extends about 90% through the thickness of the print media from a front surface towards a back surface thereof.

31
32
53. The assembly of claim ~~20~~ wherein said substantial-cut line includes a line cut from a top surface of said print media approximately 90% the way through towards a bottom surface.

32
33
54. The assembly of claim ~~20~~ wherein said print media is a 10 mil thick card stock and said substantial-cut lines extend 9.3 to 9.5 mil through said card stock.

33
34
55. The assembly of claim ~~20~~ wherein said substantial-cut line extends between 70% and 98% of the distance through the thickness of said print media from a front surface towards a back surface thereof.

34
35
56. The assembly of claim ~~20~~ wherein said substantial cut-line comprises aligned top cut and bottom cut penetration lines leaving only a thin center piece of said print media therebetween.

REMARKS

The Office Action

In the above-referenced Office Action, claims 1, 5, 11-14, 20, 24, and 26 were rejected as being indefinite, claims 1-27 were rejected as being unpatentable over Bishop et al and claims 1-4, 14-17 and 20-23 were provisionally rejected under the judicially-created doctrine of obviousness-type double patenting over claims of the '332 application. In response thereto,
